Emerging Themes:
Common Ground

Spiritual Care definition:

“Spiritual care is that care which recognises and responds to the needs of the human spirit when faced with trauma, ill health or sadness and can include the need or meaning, self worth, to express oneself, for faith support, perhaps for rites or prayer or sacrament, or simply for a sensitive listener.

Spiritual care begins with encouraging human contact in compassionate relationship, and moves in whatever direction need requires.”

(www.nes.scot.nhs.uk, 2009)
